

NOTICE

Effective January 31, at 6:00 a.m. Seasonal Weight Restrictions will be in effect on all county roads until further notice.

Seasonal Weight Restrictions require that axle loadings be reduced by 35% and speed limits on frost restricted routes be reduced to 35 MPH for every vehicle over 10,000 lbs. Gross weight.

Lake County Road Commission

LAKE COUNTY ROAD COMMISSION

POLICY # 1023: Spring Weight Restrictions

STATEMENT OF POLICY:

All loads shall have a 35% reduction of normal legal loadings.

All roads shall have a 35 mph speed limit.

At the Road Commission's discretion, roads that are not maintained during the winter months may be used to haul normal legal loadings. These roads must access directly onto a class A road. The Road Commission will not repair the road during this time, but will supply barricades if necessary to close road during this time. The Road Commission will repair after hauling is completed.

The possibility exists that the Road Commission will remove weight restrictions from gravel roads earlier than from paved roads. This is solely at the discretion of the Road Commission, and it is not guaranteed this will happen.
