

LAKE COUNTY ROAD COMMISSION

POLICY # 1010: SNOWMOBILES

STATEMENT OF POLICY:

The Lake County Road Commission will permit the use of all county roads for snowmobile use. The board asks reasonable use of county roads, including no double or multiple driving or parking on the plowed surface of the road. No excess speed or driving on the wrong side of the road. Snowmobiles must yield right of way to automobile traffic and abide by such driving rules as used by motor vehicles at all times.

The first priority of the Road Commission is to maintain the roadways in a manner that provides safe traveling conditions for the motoring public.
